1. Executive Summary

1.1 The Core Challenge

The Fruit of the Spirit (Galatians 5:22-23) are character traits, not actions. Tribute is built around tracking actions. This creates a fundamental tension:

Habit Type	Example	Trackable?
Behavioural	Exercise 30 min	Yes — clear action, clear completion
Abstention	No alcohol	Yes — binary daily confirmation
Character	Be more patient	??? — when did I "do" patience?

You cannot "complete" kindness the way you complete a workout. The Fruit are cultivated over time through the Spirit's work, not achieved through effort.

1.2 The Solution: Combine Options 2 and 4

This specification implements a hybrid approach that honours the theological reality while keeping the app action-oriented:

1. Fruit as Purpose Tags (Option 4): Every habit can be tagged with a Fruit. The app surfaces which fruits the user's habit portfolio is cultivating.
2. Fruit Micro-Action Library (Option 2): Users who want to track a fruit directly can choose from a library of concrete, observable micro-actions framed as "practices that make space for the Spirit."
3. Fruit Portfolio Dashboard: A visual display showing which fruits the user is cultivating through their habits.
4. Sunday Look Back Integration: Weekly reflection surfaces fruit connections across all habits.

1.3 Design Principles

- Cultivation, not completion: Users are practicing, not performing.
- Grace in framing: No failure states. Missing a day is not losing the fruit.
- Spirit-centred: The user creates space; the Spirit grows the fruit.
- Action-anchored: Even character traits are connected to observable behaviours.
- Theologically honest: We don't claim users can "achieve" patience — they can practice pausing.

1.4 Feature Summary

Component	Description	User Value
Fruit Purpose Tags	Tag any habit with one or more fruits	See the spiritual purpose behind habits
Micro-Action Library	45+ trackable practices organised by fruit	Concrete ways to cultivate each fruit

Fruit Portfolio	Visual dashboard of fruit cultivation	See which fruits are growing
Sunday Look Back	Weekly reflection on fruit progress	Connect effort to spiritual formation
Onboarding	Introduce fruit framework during setup	Understand the "why" from day one

2. Theological Foundation

2.1 Scripture Foundation

> *"But the fruit of the Spirit is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, self-control; against such things there is no law." — Galatians 5:22-23 (ESV)*

The Fruit of the Spirit are not commands to obey but characteristics that emerge when believers walk in step with the Spirit. They are gifts of grace, not achievements of willpower.

2.2 The Nine Fruits

Fruit	Greek	Definition	Distinguishing Characteristic
Love	ἀγάπη (agape)	Self-giving, unconditional love	Seeks the good of others without expecting return
Joy	χαρά (chara)	Deep gladness independent of circumstances	Not happiness (external) but joy (internal, stable)
Peace	εἰρήνη (eirene)	Wholeness, harmony, well-being	Absence of inner turmoil, presence of shalom
Patience	μακροθυμία (makrothymia)	Long-suffering, endurance	Restraint under provocation; waiting without anxiety
Kindness	χρηστότης (chrestotes)	Goodness in action toward others	Active benevolence, not passive niceness
Goodness	ἀγαθωσύνη (agathosyne)	Moral excellence, integrity	Doing right even at personal cost
Faithfulness	πίστις (pistis)	Reliability, trustworthiness	Keeping commitments; loyalty under pressure
Gentleness	πραΰτης (prautes)	Meekness, strength under control	Power restrained, not weakness
Self-control	ἐγκράτεια (egkrateia)	Mastery over desires and impulses	Saying no to self; discipline without legalism

2.3 Theological Guardrails

The app must avoid these theological errors:

- Works-righteousness: Implying users can "earn" spiritual maturity through effort.
- Quantified spirituality: Treating fruit as metrics to be optimised.
- Shame-based motivation: Using failure to motivate rather than grace.
- Fruit as independent virtues: Forgetting they are aspects of one unified character (the character of Christ).

2.4 The "Space" Framing

The key theological move is framing habits as creating space for the Spirit to work:

> *"You can't manufacture patience. But you can practise pausing. The Spirit does the rest."*

This acknowledges human agency (we practice) while honouring divine agency (the Spirit grows the fruit). The user is not producing the fruit — they are tending the soil.

3. Feature Architecture Overview

3.1 System Components

Component	Location	Relationship
Fruit Purpose Tags	Habit model	One-to-many: Habit → Fruits
Micro-Action Library	Habit creation flow	Pre-populated habits with fruit tags
Fruit Portfolio Dashboard	Profile / Dashboard tab	Aggregate view of user's fruit coverage
Sunday Look Back	Weekly reflection	Surfaces fruit connections
Onboarding	First-run experience	Introduces fruit framework

3.2 Data Flow

- Every habit has an optional fruitTags array (can have 0, 1, or multiple fruits)
- When user completes a habit, completion is attributed to tagged fruits
- Fruit Portfolio aggregates completions across all habits tagged with each fruit
- Sunday Look Back queries week's completions grouped by fruit
- Micro-Action Library provides pre-configured habits with fruit tags already set

3.3 Firestore Collection Structure

```
/users/{userId}/habits/{habitId}  → includes fruitTags[]
/users/{userId}/fruit_portfolio/{fruitId}  → aggregate stats
/micro_actions/{fruitId}/actions/{actionId}  → library content
/fruit_metadata/{fruitId}  → static content (verses, descriptions)
```

4. Component 1: Fruit Purpose Tags

4.1 Overview

Every habit in Tribute can be tagged with one or more Fruit of the Spirit. This connects the user's daily actions to their spiritual formation.

4.2 User Stories

- As a user creating a habit, I want to tag it with a Fruit so I understand its spiritual purpose.
- As a user, I want to see which Fruit my existing habits are cultivating.
- As a user, I want the app to suggest Fruit tags based on my habit type.
- As a user, I want to see a purpose statement connecting my habit to the Fruit.

4.3 Data Model

4.3.1 Updated Habit Schema

Field	Type	Description
fruitTags	array<FruitType>	Zero or more fruits this habit cultivates
fruitPurposeStatement	string?	Optional custom purpose statement linking habit to fruit
suggestedFruitTags	array<FruitType>	App-suggested tags based on habit category (not stored, computed)

4.3.2 FruitType Enum

```
enum FruitType {   LOVE,   JOY,   PEACE,   PATIENCE,   KINDNESS,   GOODNESS,
FAITHFULNESS,   GENTLENESS,   SELF_CONTROL }
```

4.3.3 Fruit-to-Category Mapping (for suggestions)

Habit Category	Suggested Fruits
Exercise / Body	SELF_CONTROL, PATIENCE
Scripture / Prayer	FAITHFULNESS, PEACE, JOY
Gratitude	JOY, LOVE
Rest / Sleep	PEACE, SELF_CONTROL
Service / Relationships	LOVE, KINDNESS, GOODNESS
Fasting / Abstention	SELF_CONTROL, PATIENCE, FAITHFULNESS
Study / Learning	FAITHFULNESS, PATIENCE
Screen Time / Digital	SELF_CONTROL, PEACE
Sobriety	SELF_CONTROL, FAITHFULNESS

4.4 Business Logic

4.4.1 During Habit Creation

- After user sets habit category, app suggests relevant fruits (see mapping above)
- User can accept suggestions, modify, or skip entirely
- If user selects fruit(s), app shows a purpose statement template:
  - "[Fruit]: [Default purpose statement for this fruit + category]"
  - User can customise the purpose statement or use default
- Fruit tags are stored on the habit document

4.4.2 Editing Existing Habits

- User can add/remove fruit tags at any time from habit edit screen
- Changing fruit tags does not affect historical completions (they retain original tags)

4.4.3 Habit Completion Attribution

- When a habit is completed, the completion is attributed to all tagged fruits
- This updates the Fruit Portfolio (see Section 6)
- Attribution is stored on the completion record for historical accuracy

4.5 Default Purpose Statements

Habit Example	Fruit	Default Purpose Statement
Exercise	Self-control	I'm learning to govern my body, not be governed by it.
Exercise	Patience	I'm building endurance — in body and spirit.
No doom-scrolling	Peace	I'm protecting my mind from anxiety and comparison.
No doom-scrolling	Self-control	I'm choosing what enters my mind, not letting algorithms choose.
Daily gratitude	Joy	I'm training my eyes to see what God has given.
Call a friend weekly	Love	I'm showing up for the people God put in my life.
5 min silence	Peace	I'm learning to be still and know He is God.
5 min silence	Patience	I'm practising waiting and listening.
No alcohol	Self-control	I'm proving that nothing has mastery over me.
Scripture reading	Faithfulness	I'm meeting God in His Word, day after day.

4.6 UI Specification

4.6.1 Fruit Tag Selector (Habit Creation)

- Appears after category selection, before scheduling
- Header: "What fruit is this cultivating?"

- Subheader: "Connect this habit to your spiritual growth. (Optional)"
- Display: 9 fruit chips in a 3x3 grid, each with icon and name
- Suggested fruits are pre-highlighted with "Suggested" badge
- User taps to select/deselect (multi-select allowed)
- Skip option: "I'll decide later" text link

4.6.2 Fruit Chip Component

State	Background	Border	Text
Unselected	Warm White	1px Muted	Charcoal
Selected	Sage (20% opacity)	2px Sage	Charcoal, bold
Suggested	Warm White	1px dashed Golden	Charcoal + "Suggested" badge

4.6.3 Purpose Statement Input

- Appears after fruit selection (if any fruits selected)
- Pre-filled with default statement based on first selected fruit
- Editable text field with character limit (200 chars)
- Placeholder if empty: "Why does this habit matter to you spiritually?"

4.6.4 Fruit Tags Display (On Habit Card)

- Location: Below habit name, above progress indicator
- Display: Small fruit icons (16px) in a row, max 3 visible + "+N" overflow
- Tap to expand and see full list with purpose statement

5. Component 2: Fruit Micro-Action Library

5.1 Overview

For users who want to track a fruit directly, the app provides a library of concrete, observable micro-actions. These are pre-configured habits with fruit tags, tracking types, and grace-framed copy already set.

5.2 User Stories

- As a user, I want to browse habits organised by Fruit so I can find practices that cultivate specific character.
- As a user, I want to add a pre-configured fruit habit with one tap.
- As a user, I want to customise a micro-action to fit my life.
- As a user, I want to write my own micro-action if the library doesn't fit.

5.3 Data Model

5.3.1 Firestore Schema: micro_actions

```
/micro_actions/{fruitType}/actions/{actionId}
```

Field	Type	Description
id	string	Auto-generated document ID
fruit	FruitType	Parent fruit
name	string	Short action name (e.g., "Reach out to encourage someone")
description	string	Longer description with context
trackingType	enum	CHECK_IN | TIMED | COUNT
targetValue	number?	Default target for TIMED or COUNT
defaultFrequency	enum	DAILY | WEEKLY
purposeStatement	string	Pre-written purpose statement
promptText	string	Daily check-in prompt
completionText	string	Message shown after completion
anchorVerse	string?	Optional Scripture reference
order	number	Display order within fruit
isPremium	boolean	Whether this requires subscription

5.4 Library Content Summary

The complete library contains 45+ micro-actions across all 9 fruits. Full content is in Appendix A.

Fruit	# of Actions	Primary Tracking Types
Love	5	Count, Check-in
Joy	5	Check-in, Timed
Peace	5	Timed, Check-in
Patience	5	Check-in, Timed
Kindness	5	Count, Check-in
Goodness	5	Check-in
Faithfulness	5	Check-in
Gentleness	5	Check-in
Self-control	5	Check-in

5.5 Business Logic

5.5.1 Accessing the Library

- Entry point 1: "Add Habit" → "Browse by Fruit" tab
- Entry point 2: Fruit Portfolio Dashboard → "Cultivate this fruit" action
- Entry point 3: Sunday Look Back → "Add a habit for [underrepresented fruit]"

5.5.2 Adding a Micro-Action Habit

- User browses library by fruit (horizontal scroll of fruit tabs)
- User taps a micro-action to see detail modal
- Detail modal shows: Name, description, tracking type, purpose statement, anchor verse
- User taps "Add this habit" to proceed to scheduling
- Scheduling flow is abbreviated (frequency pre-selected, just confirm days/time)
- Habit is created with fruitTags pre-populated

5.5.3 Customising a Micro-Action

- From detail modal, user can tap "Customise"
- Opens full habit creation flow with all fields pre-populated but editable
- User can change name, description, tracking type, frequency, purpose statement
- Fruit tag remains but can be modified

5.5.4 Creating Custom Micro-Action

- At bottom of each fruit's action list: "Write your own"
- Opens habit creation flow with fruit tag pre-selected
- Prompt: "What practice helps you cultivate [fruit]?"

5.6 UI Specification

5.6.1 Fruit Library Browser

- Header: "Cultivate the Fruit of the Spirit"
- Subheader: "Small practices that make space for the Spirit."
- Horizontal scroll: 9 fruit tabs with icons
- Content area: Vertical list of micro-actions for selected fruit
- Footer: "Write your own [fruit] practice" link

5.6.2 Micro-Action Card

Element	Specification
Action name	Inter Medium 16sp, Charcoal
Description	Inter Regular 14sp, Muted, max 2 lines
Tracking badge	Small chip: "Check-in" / "Timed" / "Count"
Add button	Icon: + in circle, Sage
Card background	Warm White with subtle shadow

5.6.3 Micro-Action Detail Modal

- Header: Action name in DM Serif Display 20sp
- Description: Full text
- Purpose statement: In quote styling with Golden left border
- Anchor verse: Scripture reference with full text
- Tracking info: Type, default frequency
- Primary CTA: "Add this habit" (Golden button)
- Secondary: "Customise" (text link)

6. Component 3: Fruit Portfolio Dashboard

6.1 Overview

A visual display showing which fruits the user is cultivating through their habits. This gives users a "portfolio view" of their spiritual formation.

6.2 User Stories

- As a user, I want to see which fruits my habits are cultivating.
- As a user, I want to identify fruits I'm neglecting so I can add practices.
- As a user, I want to see my progress over time for each fruit.
- As a user, I want to understand that this is cultivation, not achievement.

6.3 Data Model

6.3.1 Firestore Schema: fruit_portfolio

```
/users/{userId}/fruit_portfolio/{fruitType}
```

Field	Type	Description
fruit	FruitType	The fruit being tracked
habitCount	number	Number of active habits tagged with this fruit
totalCompletions	number	All-time completions for habits with this fruit
weeklyCompletions	number	Completions in current week (reset Sunday)
lastCompletedAt	timestamp?	Most recent completion
currentStreak	number	Consecutive weeks with at least one completion
longestStreak	number	Best consecutive week streak

6.3.2 Portfolio Aggregate (Computed, Not Stored)

Field	Type	Description
activeFruits	number	Fruits with at least one habit (0-9)
dominantFruit	FruitType?	Fruit with most completions this week
neglectedFruits	array<FruitType>	Fruits with 0 habits
weeklyBalance	number	Percentage of fruits with activity this week (0-100)

6.4 Business Logic

6.4.1 Portfolio Updates

- Triggered by: Habit completion, habit creation/deletion, habit tag changes

- On habit completion: Increment weeklyCompletions and totalCompletions for each tagged fruit
- On habit creation: Increment habitCount for each tagged fruit
- On habit deletion: Decrement habitCount for each tagged fruit
- Weekly reset (Cloud Function): Reset weeklyCompletions to 0, update streaks

6.4.2 Streak Calculation

- A "week" is Sunday 00:00 to Saturday 23:59 (user's timezone)
- If weeklyCompletions > 0 at week end: currentStreak++
- If weeklyCompletions = 0 at week end: currentStreak = 0
- longestStreak = max(longestStreak, currentStreak)
- Streak display: "[N] weeks cultivating [fruit]"

6.4.3 Portfolio Calculation (On Read)

- activeFruits = count of fruits where habitCount > 0
- dominantFruit = fruit with highest weeklyCompletions (ties: alphabetical)
- neglectedFruits = fruits where habitCount = 0
- weeklyBalance = (fruits with weeklyCompletions > 0) / 9 * 100

6.5 UI Specification

6.5.1 Dashboard Location

- Primary: Dedicated "Fruit" tab in main navigation (alongside Today, Habits, Profile)
- Secondary: Summary card on Profile screen

6.5.2 Fruit Portfolio View

- Header: "The Fruit Growing in You"
- Subheader: "Your habits are cultivating these fruits."
- Main display: 3x3 grid of fruit tiles
- Below grid: Weekly summary text
- Bottom section: "Fruits to cultivate" (neglected fruits with CTA)

6.5.3 Fruit Tile Component

Element	Specification
Icon	32px fruit icon (unique per fruit)
Name	Inter Medium 14sp, Charcoal
Activity indicator	Small dot: Sage if active this week, Muted if not
Habit count	Inter Regular 12sp: "[N] habits"
Tile size	100px x 100px

Tap action	Navigate to fruit detail view

6.5.4 Fruit Tile States

State	Background	Border	Icon Opacity
Active (habits exist, completed this week)	Sage 10%	2px Sage	100%
Dormant (habits exist, not completed this week)	Warm White	1px Muted	70%
Neglected (no habits)	Transparent	1px dashed Muted	40%

6.5.5 Fruit Detail View

- Accessed by tapping a fruit tile
- Header: Fruit name + icon (large)
- Definition: One-line theological description
- Scripture: Galatians 5:22-23 with this fruit highlighted
- Stats section:
  - "[N] habits cultivating this fruit"
  - "[N] completions this week"
  - "[N] weeks cultivating" (streak)
  - "[N] total completions all-time"
- Habits list: All habits tagged with this fruit
- CTA: "Add a [fruit] practice" → opens library filtered to this fruit

6.5.6 Neglected Fruits Section

- Appears below grid if neglectedFruits.length > 0
- Header: "Fruits to cultivate"
- Display: Horizontal scroll of neglected fruit chips
- Each chip: Icon + name + "+ Add" button
- Tap "+ Add": Opens micro-action library filtered to that fruit
- Grace copy: "These fruits aren't missing — they're waiting. Add a small practice when you're ready."

7. Component 4: Sunday Look Back Integration

7.1 Overview

The existing Sunday Look Back feature is enhanced to surface fruit connections, helping users see how their weekly habits contributed to spiritual formation.

7.2 User Stories

- As a user, I want my weekly review to show which fruits I cultivated.
- As a user, I want encouragement that connects my effort to spiritual growth.
- As a user, I want suggestions for underrepresented fruits.

7.3 Data Model

7.3.1 Weekly Fruit Summary (Computed for Look Back)

Field	Type	Description
cultivatedFruits	array<FruitSummary>	Fruits with completions this week, sorted by completions desc
dominantFruit	FruitType	Fruit with most completions
neglectedFruits	array<FruitType>	Fruits with habits but no completions
emptyFruits	array<FruitType>	Fruits with no habits at all
totalFruitCompletions	number	Sum of completions across all fruits
fruitBalance	number	0-100 score of fruit distribution

7.3.2 FruitSummary Object

```
{   fruit: FruitType,   completions: number,   habitCount: number,   topHabit:
string  // Name of habit with most completions for this fruit }
```

7.4 Business Logic

7.4.1 Fruit Section in Look Back

- Query all completions from the past week
- Group by fruitTags on each completion's habit
- Calculate cultivatedFruits with counts
- Identify dominant fruit (highest completions)
- Identify neglected fruits (habits exist but 0 completions)
- Identify empty fruits (no habits tagged)

7.4.2 Display Logic

- If user has no fruit-tagged habits: Show intro to fruit feature (not fruit stats)

- If user has fruit-tagged habits: Show fruit summary section
- Always frame positively — focus on what was cultivated, not what was missed

7.5 UI Specification

7.5.1 Fruit Section Location

- Appears in Sunday Look Back between habit summary and gratitude highlights
- Section header: "The Fruit Growing in You"

7.5.2 Fruit Summary Card

- Header: "This week, your habits touched on [fruit], [fruit], and [fruit]."
- Subheader: "The Spirit is at work."
- Visual: Row of fruit icons for cultivated fruits (max 5, then +N)
- Dominant fruit callout: "[Fruit] was your focus this week." (with icon)
- Stat: "[N] moments of intentional practice"

7.5.3 Fruit Encouragement Copy

Scenario	Copy
1 fruit cultivated	"You focused on [fruit] this week. That's faithfulness."
2-3 fruits cultivated	"Your habits touched on [fruit], [fruit], and [fruit]. The Spirit is at work."
4+ fruits cultivated	"You cultivated [N] fruits this week. The whole tree is growing."
Dominant fruit strong	"[Fruit] was your focus this week. Keep tending that soil."
Good balance	"You're cultivating a balanced orchard. Well done."

7.5.4 Neglected Fruit Prompt (Optional)

- Only shows if user has been using app 4+ weeks AND has neglected fruits
- Gentle prompt: "You haven't practised [fruit] in a while. Add a small habit?"
- CTA: "Add a [fruit] practice" → library filtered to that fruit
- Dismiss option: "Not now" (hides for 2 weeks)

8. Component 5: Onboarding Integration

8.1 Overview

Introduce the Fruit of the Spirit framework during onboarding so users understand the "why" behind their habits from day one.

8.2 User Stories

- As a new user, I want to understand how Tribute connects habits to spiritual formation.
- As a new user, I want to optionally set up habits organised by fruit.
- As a new user, I don't want to be overwhelmed by theology before I start.

8.3 Onboarding Flow Position

Fruit introduction appears after initial habit selection, before final confirmation:

1. Welcome screens (existing)
2. Daily Gratitude setup (existing)
3. Initial habit selection (existing)
4. Fruit of the Spirit introduction (NEW)
5. Fruit tagging of selected habits (NEW - optional)
6. Schedule confirmation (existing)
7. Onboarding complete

8.4 Onboarding Screens

8.4.1 Screen 1: Fruit Introduction

- Header: "Habits aren't the goal."
- Body: "The goal is who you're becoming. In Galatians, Paul describes the fruit of a life connected to God's Spirit: love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, and self-control."
- Visual: 9 fruit icons in a subtle arrangement
- Subtext: "Your habits are how you tend the soil. The Spirit grows the fruit."
- CTA: "Continue"

8.4.2 Screen 2: Connect Your Habits (Optional)

- Header: "Connect your habits to the fruit."
- Body: "See which fruits your habits are cultivating. (You can always change this later.)"
- Display: List of habits user selected in previous step
- Each habit shows: Name + suggested fruit tags (tappable to modify)
- Skip option: "I'll do this later" (proceeds without tagging)
- CTA: "Continue"

8.4.3 Screen 3: Fruit Portfolio Preview

- Only shown if user tagged at least one habit
- Header: "Here's what you're cultivating."
- Display: Mini fruit portfolio showing tagged fruits highlighted
- Body: "As you complete your habits, you'll see the fruit grow."
- CTA: "Let's get started"

8.5 Grace-Framed Copy for Onboarding

> *"The Fruit of the Spirit aren't habits you achieve — they're gifts the Spirit grows in you. But you can create space for them. These small practices aren't about perfection. They're about showing up and letting God do the rest."*

9. UI/UX Specifications

9.1 Fruit Iconography

Each fruit has a unique icon. These should be custom-designed to fit Tribute's aesthetic — warm, approachable, not overly literal.

Fruit	Icon Concept	Primary Colour
Love	Heart with radiating warmth	Warm Coral (#D4836B)
Joy	Sun with gentle rays	Golden (#D4A843)
Peace	Dove or olive branch	Sage (#7A9E7E)
Patience	Hourglass or seed sprouting	Earth Brown (#8B7355)
Kindness	Open hand or gift	Soft Blue (#7A9EB5)
Goodness	Star or light	Warm White (#F5F2EB)
Faithfulness	Anchor or steady flame	Deep Navy (#2E4057)
Gentleness	Feather or soft wave	Lavender (#B5A7C7)
Self-control	Shield or bridle	Charcoal (#3A3A3A)

9.2 Fruit Colour System

When displaying multiple fruits together, use the primary colour at 20% opacity for backgrounds, 100% for icons and accents.

9.3 Animation Guidelines

- Fruit tile "bloom": When a fruit goes from Dormant to Active, gentle scale-up animation (1.0 → 1.05 → 1.0) with colour fade
- Completion attribution: Brief particle effect of fruit icon when habit is completed
- Portfolio update: Smooth counter increment when viewing dashboard
- Sunday Look Back fruit reveal: Fruits appear one by one with stagger delay

9.4 Empty States

Location	Empty State Copy	CTA
Fruit Portfolio (no tagged habits)	"Your habits aren't connected to the fruit yet. Want to add some purpose?"	"Tag my habits"
Fruit Detail (no habits)	"No habits are cultivating [fruit] yet. Start with a small practice?"	"Add a [fruit] habit"
Sunday Look Back (no fruit data)	"Connect your habits to the Fruit of the Spirit to see how you're growing."	"Learn more"

10. Copy & Tone Guidelines

10.1 Core Framing Principles

- Cultivation over completion: "You're cultivating patience" not "You completed patience"
- Practice over achievement: "You practised pausing" not "You achieved patience"
- Spirit-centred: "The Spirit is growing this in you" not "You're building character"
- Grace after misses: "Grace is still here" not "You missed your goal"

10.2 Key Phrases

Context	Use This	Not This
Describing activity	Cultivating, practising, tending	Achieving, completing, mastering
After completion	You made space for [fruit]	You did [fruit]
Progress language	The fruit is growing	You're improving
Missed day	Grace is here. Try again.	You broke your streak
Portfolio view	The fruit growing in you	Your spiritual score

10.3 Feature-Specific Copy

10.3.1 Fruit Purpose Tags

Context	Copy
Tag selection prompt	"What fruit is this cultivating?"
Purpose statement prompt	"Why does this habit matter to you spiritually?"
After tagging	"This habit is now connected to [fruit]."
Viewing tags	"This habit cultivates [fruit]."

10.3.2 Micro-Action Library

Context	Copy
Library header	"Cultivate the Fruit of the Spirit"
Library subheader	"Small practices that make space for the Spirit."
Action detail intro	"This practice helps cultivate [fruit]."
Add confirmation	"You're now practising [action name]."
Custom action prompt	"What practice helps you cultivate [fruit]?"

10.3.3 Fruit Portfolio

Context	Copy

Dashboard header	"The Fruit Growing in You"
Dashboard subheader	"Your habits are cultivating these fruits."
Active fruit	"[N] habits cultivating this fruit"
Neglected section	"Fruits to cultivate"
Neglected grace	"These fruits aren't missing — they're waiting. Add a small practice when you're ready."

10.3.4 Daily Check-In Prompts (for Micro-Actions)

Fruit	Sample Prompt
Love	"Did you reach out to encourage someone today? Even a small word counts."
Joy	"Did you notice something beautiful today? That's joy taking root."
Peace	"Did you choose calm over chaos today? That's the Spirit at work."
Patience	"Did you wait well today? Patience is grown in the waiting."
Kindness	"Did you do something kind today? Kindness is love in action."
Goodness	"Did you do what was right today? Even when no one was watching?"
Faithfulness	"Did you keep your word today? Faithfulness is built one promise at a time."
Gentleness	"Did you respond softly today? Gentleness is strength under control."
Self-control	"Did you say no to an impulse today? Self-control is freedom, not restriction."

10.3.5 Completion Messages

Fruit	Completion Message
Love	"You showed up for someone. That's love being cultivated."
Joy	"You chose to see goodness. The Spirit is growing joy in you."
Peace	"You chose stillness. Peace is taking root."
Patience	"You waited well. Patience is being cultivated."
Kindness	"You acted with kindness. That seed will bear fruit."
Goodness	"You did what was right. Goodness is growing in you."
Faithfulness	"You showed up again. Faithfulness is built day by day."
Gentleness	"You chose softness over force. Gentleness is strength."
Self-control	"You said no to yourself. That's freedom, not restriction."

10.3.6 Sunday Look Back

Context	Copy
Section header	"The Fruit Growing in You"

Summary (1 fruit)	"You focused on [fruit] this week. That's faithfulness."
Summary (multiple)	"Your habits touched on [fruit], [fruit], and [fruit]. The Spirit is at work."
Dominant fruit	"[Fruit] was your focus this week. Keep tending that soil."
Encouragement	"This isn't a score — it's a story of growth. The fruit is forming, even when you can't see it."

11. Analytics & Tracking

11.1 Key Metrics

Metric	Definition	Target
Fruit tag adoption	% of habits with at least one fruit tag	> 50%
Portfolio coverage	Average number of fruits with habits per user	> 4
Micro-action adoption	% of users who add at least one library habit	> 30%
Fruit balance score	Average weekly balance (fruits with activity / 9)	> 40%
Sunday Look Back fruit engagement	% of users who view fruit section in Look Back	> 60%
Neglected fruit conversion	% of users who add a habit after neglected fruit prompt	> 15%

11.2 Events to Track

- fruit_tag_added: {habitId, fruit, source: 'creation' | 'edit' | 'suggestion_accepted'}
- fruit_tag_removed: {habitId, fruit}
- micro_action_viewed: {fruit, actionId}
- micro_action_added: {fruit, actionId, customised: boolean}
- custom_micro_action_created: {fruit}
- fruit_portfolio_viewed: {}
- fruit_detail_viewed: {fruit}
- sunday_look_back_fruit_viewed: {}
- neglected_fruit_prompt_shown: {fruit}
- neglected_fruit_prompt_accepted: {fruit}
- neglected_fruit_prompt_dismissed: {fruit}
- onboarding_fruit_intro_completed: {}
- onboarding_fruit_tagging_completed: {fruitsTagged: number}
- onboarding_fruit_tagging_skipped: {}

12. Implementation Phases

12.1 Phase 1: Data Foundation (Week 1)

- Add fruitTags and fruitPurposeStatement fields to Habit model
- Create FruitType enum and fruit_metadata collection
- Create fruit_portfolio collection structure
- Implement portfolio update logic on habit completion
- Create Cloud Function for weekly portfolio reset

12.2 Phase 2: Fruit Purpose Tags (Week 2)

- Update habit creation flow with fruit tag selector
- Implement fruit suggestion logic based on habit category
- Add purpose statement input to habit creation
- Display fruit tags on habit cards
- Add fruit tag editing to habit detail view

12.3 Phase 3: Micro-Action Library (Week 3)

- Create micro_actions collection with all 45+ actions
- Build Fruit Library browser UI
- Implement micro-action detail modal
- Build "Add this habit" flow with abbreviated scheduling
- Build "Customise" flow branching to full habit creation
- Build "Write your own" custom action flow

12.4 Phase 4: Fruit Portfolio Dashboard (Week 4)

- Create Fruit Portfolio Cubit with aggregation logic
- Build Fruit tab in main navigation
- Build 3x3 fruit tile grid with state variants
- Build fruit detail view with stats and habits list
- Build "Neglected fruits" section with CTAs
- Implement tile animations (bloom, update)

12.5 Phase 5: Sunday Look Back Integration (Week 5)

- Build weekly fruit summary computation
- Add fruit section to Sunday Look Back screen
- Implement fruit encouragement copy logic
- Build neglected fruit prompt (4+ week users only)
- Wire up "Add a [fruit] practice" CTA

12.6 Phase 6: Onboarding & Polish (Week 6)

- Add fruit introduction screens to onboarding
- Add fruit tagging step for selected habits
- Add portfolio preview screen
- Implement skip flows for all fruit onboarding
- Design and implement fruit iconography
- QA and bug fixes
- Analytics event implementation

12.7 Dependencies

Phase	Dependencies
Phase 1	None — foundation work
Phase 2	Phase 1 (data model)
Phase 3	Phase 1 (data model), fruit_metadata content
Phase 4	Phase 1 (portfolio model), Phase 2 (tag display)
Phase 5	Phase 4 (portfolio data), existing Sunday Look Back
Phase 6	All prior phases, custom icon assets

Appendix A: Complete Micro-Action Library

A.1 Love

Action	Type	Prompt	Completion
Reach out to encourage someone	Count	Did you reach out to encourage someone today?	You showed up for someone. That's love.
Pray specifically for one person	Check-in	Did you pray for someone by name today?	Lifting others to God is love in action.
Give someone your full attention	Check-in	Did you give someone your undivided attention today?	Presence is one of love's greatest gifts.
Do something without being asked	Count	Did you serve someone without being asked?	Anticipating needs is how love shows up.
Forgive someone (even silently)	Check-in	Did you release bitterness toward someone today?	Forgiveness is love choosing freedom.

A.2 Joy

Action	Type	Prompt	Completion
Write down one thing you're grateful for	Check-in	Did you notice something to be grateful for?	Gratitude is the soil where joy grows.
Notice one moment of beauty	Check-in	Did you pause to see beauty today?	Joy is found in the noticing.
Laugh with someone	Check-in	Did you share laughter with someone today?	Laughter is joy overflowing.
Choose contentment over comparison	Check-in	Did you choose contentment today?	Joy isn't found in comparison.
Worship (song, prayer, or silence)	Timed	Did you take time to worship today?	Worship turns our eyes to the source of joy.

A.3 Peace

Action	Type	Prompt	Completion
Take 2 minutes of silence	Timed	Did you find a moment of stillness today?	Peace is cultivated in the quiet.
Choose not to engage in an argument	Check-in	Did you walk away from conflict today?	Sometimes peace means letting go.

Release one worry to God in prayer	Check-in	Did you give a worry to God today?	Casting cares is how peace takes hold.
Breathe and pause before reacting	Check-in	Did you pause before reacting today?	The pause is where peace lives.
Turn off notifications for a set period	Timed	Did you unplug for a while today?	Peace requires boundaries.

A.4 Patience

Action	Type	Prompt	Completion
Wait without complaining	Check-in	Did you wait well today?	Patience is grown in the waiting.
Let someone go ahead of you	Check-in	Did you yield to someone today?	Letting others go first is patience in action.
Pause 10 seconds before responding	Check-in	Did you pause before responding in a tense moment?	That pause is patience taking root.
Trust God's timing in one area	Check-in	Did you trust God's timing today?	Patience trusts that God is working.
Sit with discomfort without fixing it	Timed	Did you sit with discomfort without rushing to fix it?	Patience learns to be present in the waiting.

A.5 Kindness

Action	Type	Prompt	Completion
Do one unsolicited kind thing	Count	Did you do something kind without being asked?	Kindness doesn't wait to be asked.
Compliment someone genuinely	Count	Did you give a genuine compliment today?	Words of kindness plant seeds.
Help someone without expecting return	Check-in	Did you help someone with no strings attached?	Kindness expects nothing in return.
Speak well of someone behind their back	Check-in	Did you speak well of someone when they weren't there?	Kindness builds others up, even unseen.
Give generously (time, money, attention)	Check-in	Did you give generously today?	Generosity is kindness with open hands.

A.6 Goodness

Action	Type	Prompt	Completion

Do the right thing when no one is watching	Check-in	Did you choose integrity today?	Goodness shines brightest in private.
Tell the truth even when inconvenient	Check-in	Did you tell a hard truth today?	Goodness speaks truth with love.
Stand up for someone	Check-in	Did you advocate for someone today?	Goodness stands in the gap.
Choose integrity over advantage	Check-in	Did you choose integrity over an easy win?	Goodness plays the long game.
Act justly in a small decision	Check-in	Did you act justly in something small?	Goodness cares about the details.

A.7 Faithfulness

Action	Type	Prompt	Completion
Keep a promise you made	Check-in	Did you keep your word today?	Faithfulness is keeping your word.
Show up for someone counting on you	Check-in	Did you show up when someone needed you?	Faithfulness shows up, again and again.
Follow through on a commitment	Check-in	Did you follow through on a commitment?	Faithfulness finishes what it starts.
Be consistent in a small discipline	Check-in	Did you stay consistent in something small?	Small faithfulness leads to big fruit.
Stay loyal to someone under pressure	Check-in	Did you stay loyal when it was hard?	Faithfulness doesn't fold under pressure.

A.8 Gentleness

Action	Type	Prompt	Completion
Lower your voice in a tense moment	Check-in	Did you soften your voice when tempted to raise it?	Gentleness is strength under control.
Respond softly to criticism	Check-in	Did you respond gently to criticism?	A gentle answer turns away wrath.
Handle someone's weakness with care	Check-in	Did you treat someone's weakness with compassion?	Gentleness carries others' burdens lightly.
Apologise without defending yourself	Check-in	Did you apologise without excuses?	Gentleness owns its wrongs.
Let go of the need to be right	Check-in	Did you let go of the need to be right?	Gentleness values people over positions.

A.9 Self-Control

Action	Type	Prompt	Completion
Say no to one impulse	Check-in	Did you say no to an impulse today?	Self-control is freedom, not restriction.
Stop eating before you're overly full	Check-in	Did you stop before you were stuffed?	Self-control knows when enough is enough.
Walk away from a screen when tempted	Check-in	Did you walk away from a screen when tempted?	Self-control guards your attention.
Hold your tongue when you want to react	Check-in	Did you hold your tongue when tempted to speak?	Self-control knows when to be silent.
Delay gratification in one area	Check-in	Did you wait for something instead of grabbing it now?	Self-control plays the long game.

Appendix B: Firestore Schema

B.1 Updated Habit Document

```
// /users/{userId}/habits/{habitId} {   // ... existing fields ...      // NEW:
Fruit of the Spirit integration   fruitTags: ['PATIENCE', 'SELF_CONTROL'],  //
array<FruitType>   fruitPurposeStatement: "I'm learning to govern my body, not
be governed by it.",      // For library-sourced habits   sourceType:
'USER_CREATED' | 'MICRO_ACTION_LIBRARY',   sourceActionId: string | null  // If
from library, reference to micro_actions doc }
```

B.2 Fruit Portfolio Document

```
// /users/{userId}/fruit_portfolio/{fruitType} {   fruit: 'PATIENCE',  //
FruitType enum value   habitCount: 3,  // Active habits with this tag
totalCompletions: 147,  // All-time   weeklyCompletions: 12,  // Current week
(reset Sunday)   lastCompletedAt: Timestamp,   currentStreak: 4,  //
Consecutive weeks with activity   longestStreak: 8,   updatedAt: Timestamp }
```

B.3 Micro-Action Document

```
// /micro_actions/{fruitType}/actions/{actionId} {   id: 'reach_out_encourage',
fruit: 'LOVE',   name: 'Reach out to encourage someone',   description: 'Send a
text, make a call, or write a note to encourage someone in your life.',
trackingType: 'COUNT',   targetValue: 1,   defaultFrequency: 'DAILY',
purposeStatement: "I'm showing up for the people God put in my life.",
promptText: 'Did you reach out to encourage someone today?',   completionText:
"You showed up for someone. That's love being cultivated.",   anchorVerse: '1
Thessalonians 5:11',   order: 1,   isPremium: false }
```

B.4 Fruit Metadata Document

```
// /fruit_metadata/{fruitType} {   fruit: 'PATIENCE',   greekWord:
'μακροθυμία',   greekTransliteration: 'makrothymia',   definition: 'Long-
suffering, endurance under provocation',   shortDescription: 'Restraint under
provocation; waiting without anxiety',   primaryVerse: 'Galatians 5:22-23',
supportingVerses: ['James 1:3-4', 'Romans 5:3-4', 'Colossians 3:12'],
iconName: 'patience_hourglass',   primaryColor: '#8B7355',   order: 4 }
```

B.5 Habit Completion Update (fruitTags attribution)

```
// /users/{userId}/habit_completions/{completionId} {   // ... existing fields
...      // NEW: Capture fruit tags at time of completion
fruitTagsAtCompletion: ['PATIENCE', 'SELF_CONTROL']  // Snapshot of habit's
tags }
```

Appendix C: State Management

C.1 FruitPortfolioCubit

```
// lib/features/fruit/cubit/fruit_portfolio_cubit.dart  class
FruitPortfolioState {   final Map<FruitType, FruitPortfolioEntry> portfolio;
final List<FruitType> activeFruits;   final List<FruitType> neglectedFruits;
final FruitType? dominantFruit;   final int weeklyBalance;   final bool
isLoading; }  class FruitPortfolioCubit extends Cubit<FruitPortfolioState> {
final FruitRepository _repository;   StreamSubscription? _subscription;
void loadPortfolio(String userId) {     _subscription = _repository
.watchPortfolio(userId)       .listen((portfolio) {         final active =
portfolio.entries           .where((e) => e.value.habitCount > 0)
.map((e) => e.key)           .toList();                  final neglected =
FruitType.values           .where((f) => !active.contains(f))
.toList();                  final dominant = _calculateDominant(portfolio);
final balance = (active.length / 9 * 100).round();
emit(state.copyWith(           portfolio: portfolio,           activeFruits:
active,           neglectedFruits: neglected,           dominantFruit:
dominant,           weeklyBalance: balance,           isLoading: false,
));       });   }      FruitType? _calculateDominant(Map<FruitType,
FruitPortfolioEntry> portfolio) {     // Return fruit with highest
weeklyCompletions   } }
```

C.2 MicroActionLibraryCubit

```
// lib/features/fruit/cubit/micro_action_library_cubit.dart  class
MicroActionLibraryState {   final FruitType selectedFruit;   final
List<MicroAction> actions;   final MicroAction? selectedAction;   final bool
isLoading; }  class MicroActionLibraryCubit extends
Cubit<MicroActionLibraryState> {   final MicroActionRepository _repository;
void selectFruit(FruitType fruit) async {     emit(state.copyWith(isLoading:
true, selectedFruit: fruit));     final actions = await
_repository.getActionsForFruit(fruit);     emit(state.copyWith(actions:
actions, isLoading: false));   }      void selectAction(MicroAction action) {
emit(state.copyWith(selectedAction: action));   }      Future<void>
addActionAsHabit(MicroAction action) async {     // Create habit from micro-
action template   } }
```

C.3 FruitTagSelectorCubit

```
// lib/features/habits/cubit/fruit_tag_selector_cubit.dart  class
FruitTagSelectorState {   final List<FruitType> selectedFruits;   final
List<FruitType> suggestedFruits;   final String purposeStatement; }  class
FruitTagSelectorCubit extends Cubit<FruitTagSelectorState> {      void
setSuggestedFruits(HabitCategory category) {     final suggestions =
_mapCategoryToFruits(category);     emit(state.copyWith(suggestedFruits:
suggestions));   }      void toggleFruit(FruitType fruit) {     final current =
List<FruitType>.from(state.selectedFruits);     if (current.contains(fruit)) {
current.remove(fruit);     } else {       current.add(fruit);     }
emit(state.copyWith(selectedFruits: current));
_updateDefaultPurposeStatement(current);   }      void
setPurposeStatement(String statement) {
emit(state.copyWith(purposeStatement: statement));   }      List<FruitType>
_mapCategoryToFruits(HabitCategory category) {     // Return suggested fruits
based on category   } }
```

Appendix D: Scripture References

D.1 Primary Passage

> *"But the fruit of the Spirit is love, joy, peace, patience, kindness, goodness, faithfulness, gentleness, self-control; against such things there is no law." — Galatians 5:22-23 (ESV)*

D.2 Supporting Verses by Fruit

Love

- 1 Corinthians 13:4-7 — "Love is patient and kind..."
- 1 John 4:19 — "We love because he first loved us."
- John 13:34-35 — "A new commandment I give to you, that you love one another..."
- Romans 13:10 — "Love does no wrong to a neighbor..."

Joy

- Nehemiah 8:10 — "The joy of the Lord is your strength."
- James 1:2-3 — "Count it all joy, my brothers, when you meet trials..."
- Philippians 4:4 — "Rejoice in the Lord always; again I will say, rejoice."
- Psalm 16:11 — "In your presence there is fullness of joy..."

Peace

- Philippians 4:6-7 — "Do not be anxious about anything... the peace of God..."
- John 14:27 — "Peace I leave with you; my peace I give to you."
- Isaiah 26:3 — "You keep him in perfect peace whose mind is stayed on you..."
- Colossians 3:15 — "Let the peace of Christ rule in your hearts..."

Patience

- James 1:3-4 — "The testing of your faith produces steadfastness."
- Romans 5:3-4 — "Suffering produces endurance, and endurance produces character..."
- Colossians 3:12 — "Put on then... patience..."
- Ecclesiastes 7:8 — "Better is the end of a thing than its beginning, and the patient in spirit..."

Kindness

- Ephesians 4:32 — "Be kind to one another, tenderhearted, forgiving one another..."
- Proverbs 11:17 — "A man who is kind benefits himself..."
- Luke 6:35 — "Love your enemies, and do good... and you will be sons of the Most High, for he is kind..."

Goodness

- Romans 12:21 — "Do not be overcome by evil, but overcome evil with good."

- Micah 6:8 — "What does the Lord require of you but to do justice, and to love kindness..."
- Psalm 34:14 — "Turn away from evil and do good; seek peace and pursue it."

Faithfulness

- Proverbs 3:3-4 — "Let not steadfast love and faithfulness forsake you..."
- Lamentations 3:22-23 — "His mercies... are new every morning; great is your faithfulness."
- 1 Corinthians 4:2 — "It is required of stewards that they be found faithful."
- Matthew 25:21 — "Well done, good and faithful servant..."

Gentleness

- Proverbs 15:1 — "A soft answer turns away wrath..."
- Matthew 11:29 — "I am gentle and lowly in heart..."
- 1 Peter 3:15 — "Do it with gentleness and respect..."
- Philippians 4:5 — "Let your gentleness be evident to all."

Self-Control

- Proverbs 25:28 — "A man without self-control is like a city broken into and left without walls."
- 1 Corinthians 9:25-27 — "Every athlete exercises self-control in all things..."
- 2 Timothy 1:7 — "God gave us a spirit not of fear but of power and love and self-control."
- Titus 2:11-12 — "The grace of God... training us to renounce ungodliness... and to live self-controlled lives..."

— End of Specification —
